## Vienna Hands-on-Anatomical-Surgical-Training-Courses

- During our hands-on-workshops you will perform standard and advanced procedures in dental implantology or facial cosmetic surgery.
- 80% of our courses are hands-on.
- Guided procedures, step by step.
- Two participants are assigned to each human specimen. The specimens are fresh and not embalmed, a "close to reality" simulation of the surgical procedures will be experienced.
- Well trained tutors are around to support you.
- Course Language: English
- "Vienna-Human-Cadaver-Courses" has the experience of more than 150 international courses since 1997.
- The Anatomy Training Centre is equipped with high-end technology.
- Social event: on the first evening we take you to a "Heurigen", a traditional Viennese vineyard restaurant, with local food and typical Viennese live music.
